

I would like to request that the LPFM stations cannot take priority over FM translators. One of my favorite stations is KLOVE which is on an FM translator. KLOVE is a wonderful station that puts people in a positive mood, offers programing that is safe to hear for any age group and most importantly, informs us of many ways to help in the community. It is very important for KLOVE to remain on the air for our family and community and if the LPFM is given priority over FM translator service, we won't be able to pick up the KLOVE signal. Thank you for listening to my comment!
